The Town of Saugus and Town Manager Scott Crabtree invite you to the **Third Community Forum for Saugus United 2035, the Town's Master Plan.**

Help the Town create a new Master Plan! At this interactive Zoom forum, we will focus on Housing, Open Space, Climate Resiliency, and Clean Energy. Each topic will have a short presentation followed by small group discussions in breakout rooms.

What is **Saugus United 2035**?

When completed, **Saugus United 2035** will aid the Town in protecting environmental resources, setting priorities for developing, maintaining infrastructure and public facilities, creating a framework for future land use policy decisions, promoting open democratic planning, and providing guidance to land owners, developers, and permitting authorities.
